ADDENDUM II

SUBJECT: Invitation for Bid, **Annual Contract For Long Distance, Directory Assistance, Call Conferencing and Calling Card Service (A808-06)** - dated August 9, 2005; scheduled to open September 2, 2005.

FROM: Oswald Parker, Purchasing Manager, Purchasing & General Services

DATE: August 31, 2005

THE ABOVE MENTIONED BID IS HEREBY AMENDED AS FOLLOWS:

1. The scheduled opening date of September 2, 2005 has been extended one week. The new opening date will be 2:00PM CST, September 9, 2005.
2. Question: "Under "Billing and Reporting" item #1 states that "All calls must be billed at the same uniform rate", yet the Price Sheet provides line items for each type of call. Please clarify what is required of the vendors."

Answer: Calls (of all types) must be billed at a uniform rate irregardless of the time of day.

3. Question: "Also, under the same section, item #2 states "Per minute rates must include all access line fees and associated costs including and additional trunk access line charges (e.g. T1 trunk, etc.)" The revised price sheet provides a line item for these charges which would appear to conflict with the previous statement. Again, please clarify the requirement."

Answer: To be in compliance with the appropriate tariff the City realizes that such costs must be disclosed but the City requires that access line fees, trunk access line charges, recurring charges etc. be included in the per minute rate. The City wishes to pay a per minute rate inclusive of all related charges and not be billed for recurring access charges, trunk access fees, etc. as a separate charge.
